

Wearing mittens in hospital

Information for patients

Easy Read

easy read

This booklet uses easy words and pictures.

You might want to ask someone to help you read it.

hospital

Medical staff might want you to wear mittens in hospital.

Our staff want to help get you better and keep you safe.

They might put tubes on your body.

The tubes are to give you water and medicine.

Don't pull the tubes.

The nurses might put mittens on your hand to stop you pulling at tubes.

nurse

talk to your nurse

An illustration of a woman with long brown hair wearing a red long-sleeved shirt. She is pointing her right hand towards a large QR code on the right side of the panel.

Get me? Get Me Better!
Get your health passport and return it to the Learning Disability and Autism team on:

 **Hospital Passport**

My name is:

I like to be called:

Your nurse will put the mittens on if needed.

You can talk to your nurse about the mittens.

If you have a Learning Disability or Autism diagnosis please complete a Health Passport and return it to the Learning Disability and Autism team on: leedsth-tr.lautism@nhs.net

What did you think of your care?
