

Help us reduce cancelled operations

Information for patients

Abdominal Medicine
and Surgery

On average, 85 patients across the organisation and 28 patients within Abdominal Medicine & Surgery each month do not attend their scheduled operations.

If these cancellations were reported in advance, we could offer those vital slots to other patients in need.

Can't make your surgery?

We understand plans change; notifying us before the day of surgery ensures operating sessions aren't wasted so please let us know in advance.
